

# Overview and Company Profile

**T**he Bradbury Group, LLC. uses a consultative approach to deliver innovative, best of class computing access, network infrastructure and enterprise solutions that solve our customers' technology challenges. We have created an environment that places priority on customer service, engineering talent and product knowledge.

TBG's growth is driven by our reputation for excellence in the markets we serve. Our leading edge is reflected in our positive growth selling solutions for the IT industry.

## Best in Class Partnerships:

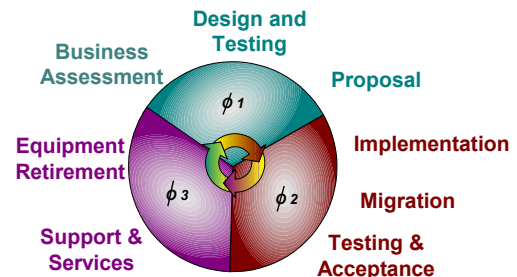

Through partnerships with leading manufacturers, we provide our customers with the "best" solution to meet their objectives. This uniquely positions TBG to assess your business issues objectively in order to recommend integrated solutions from a wide variety of industry leading platforms that best meet your goals. Some of our leading partners include:

- ▶ HP / Compaq, IBM, Sun Microsystems
- ▶ HP, IBM, NetApp, Hitachi, XIOtech
- ▶ Cisco, Symantec, HP ProCurve
- ▶ Microsoft, Novell, Altiris, Citrix
- ▶ Tivoli, Veritas, CommVault, Syncsort
- ▶ HP, ADIC, Spectra Logic

## TBG's Value to Your Organization:

- ▶ Professional consulting resulting in "state of the art" design, pre-configuration and deployment services.
- ▶ Compare storage systems in a neutral environment, experience virtualization at the software or switch level and evaluate disaster recovery between our lab and Vericenter. Our lab features leading storage vendor products and Cisco Andiamo.
- ▶ Specialties in the Education, Energy and Medical markets ensures that TBG is focused on your business.
- ▶ Industry leader in IT solutions allows us to keep you up to date with the latest offering in the industry.
- ▶ Vendor-neutral position ensures you the best solution.

## IT Life-cycle Support:

**"The IT Life Cycle"**

TBG provides complete IT life-cycle support. This includes assessments, designs, implementations, and support, refresh and disposal services. These services are available through our "Professional Services Department", which is staffed with certified, degreed professionals. Certifications held by our engineers include:

- ▶ Operating Systems: Microsoft, Novell, Unix
- ▶ Products: HP, IBM, Cisco, NetApp, Hitachi, XIOtech
- ▶ SW: Openview, Citrix, Altiris, Radware, NSI, Veritas

In addition, our break-fix service department provides warranty repair and remedial services for most major brands. Each member of our staff is trained and certified on each of the products we service.

## TBG's Growing Coverage:

Through our affiliates, TBG is no longer just a Texas based business; TBG's coverage of major markets is expanding to a national level.
